Happy new year everyone. I'm looking forward to lots of great things in the coming year. I am an optimist and hoping it won't be the disaster it appears to be heading for. I wonder if our government thought the the world would end a few days ago and they would not be held accountable for the BS that is now going on. The only skill I see in them now is the ability to point fingers while fumbling around in the dark. Either tax rates will go up or deductions will go away the effect is the same...less money in the pocket. Regardless the world will muddle on.

On the bright side, I wish all of you health and happiness for the coming year. Build lots of projects and enjoy lots of music.
