LeeLee wrote on Thu, 16 February 2012 18:10I have quite a record collection, and I would like to put them on display. Right now, they are housed in crates. I want some kind of cabinet, with glass. Anything will do, I guess. How are your records displayed?

I don't know how many records you have, but have you ever thought about something like a China cabinet? Rather than displaying fine China, you could display your records vertically.

Just a thought.
