Subject: Ear Ringing & Infections? Posted by audioaudio90 on Mon, 21 Jan 2013 01:00:43 GMT View Forum Message <> Reply to Message

I had a brief moment of high-pitched ringing in my left ear today. I think that just happens on occasion to everyone, but I noticed it more because I've also had a few bouts of pain like I have an ear infection. Is ringing common during ear infections?
