Subject: No DVI cables? Posted by Nymeria on Mon, 11 Feb 2013 17:44:24 GMT View Forum Message <> Reply to Message

I'm trying to upgrade my in-law's computer and it turns out I need a DVI cable for the monitor. I went to Walmart and Target and neither place had one. All they had were VGA and HDMI cables. Since it was almost 10 pm, I didn't have the option to go to another store, so I had to order the cable online. I'm just really surprised DVI cables aren't more readily available. It was frustrating.
