Subject: High End Speakers Posted by audioaudio90 on Mon, 11 Mar 2013 14:08:32 GMT View Forum Message <> Reply to Message

I just read an overview of some high end speakers that ranged in price from just over \$2000 to almost \$5000. I personally have not heard these speakers; they are out of my price range in any case. Have you heard these speakers and do you agree with the commentary? Would you ever spend this much on speakers?
