Watching the DVD live show tonight. Mark Knopfler, Emmy Lou Harris and an amazing band of Nashville musicians. A companion CD of the concert packaged together with it. Great stuff, even through my powered little Pork, errr, Polk PC speakers.One of the guys at Hagerman Circle tipped me to a $7 Radio Shack mini jack "Y" to R-L RCA's that will allow me to play through my Marantz receiver and the Altec/University almost 2 Pis. Then I'll really hear it.
