## Subject: New woofer upgrade options Posted by dheflin44 on Sat, 23 Mar 2013 21:36:24 GMT View Forum Message <> Reply to Message

## Wayne,

Have you looked at the new B&C 15FW76? It replaces the discontinued 15PS76, but also adds an aluminum shorting ring to control Le and reduce midrange distortion. Also it's less than half the price of a new 2226H.
