Fred...Bringing one of the OB's shown at the web site. That would be the commercial version of the Ultra. There is also a upgraded version not yet posted at the web site I call the Ultra Plus! Dual woofer with the Current Seas 8" dual cone. Will up date the web to show both hopefully next week after the photo shoot. So it will be the Ultra & Ultra Plus! both in commercial trim. Look forward to seeing you at LSAF 2013!

John
