Subject: Live Sound Vocals

I was at a restaurant last night and they had a guy there, playing a guitar and singing. His vocals were actually balanced so you didn't have to strain to hear them. Usually when I hear bands around here that isn't the case and I've complained about it before. I know it's easier to balance the vocals when it is just them and a guitar than when it's a full band, but it sure was nice all the same.
