Subject: Re: Lower Midrange. Posted by Wayne Parham on Tue, 11 Jun 2013 23:51:53 GMT View Forum Message <> Reply to Message

I must be honest: I had absolutely no luck with any Eminence 8" drivers in a midhorn. Tried some other brands too, and I just couldn't get 'em low or smooth. You would think you could scale the horn, change the rear chambers and get at least one model right. But I couldn't get satisfactory results with any 8" driver I tried.
