Subject: Re: "Are Audiophiles Wasting Their Money?" Posted by Nymeria on Tue, 09 Jul 2013 13:21:02 GMT View Forum Message <> Reply to Message

Yes, I tend to agree with you, Bruce. I don't think you need to buy \$50,000 speakers to get a high quality audio experience. I haven't even heard of some of the wooden items you mentioned.

As for gold-plated connectors, I thought they were actually better due to better conductivity, but I'm willing to admit I could be wrong. Could you explain please?
