The woofer is a JBL 2226H.

The best way to get shipping quotes is to put an item in the shopping cart and begin the checkout process. It will ask you for your address and use that to calculate shipping by several methods and shippers. It doesn't ask for payment information until after it has calculated shipping costs, so this is a good way to check prices.

There is also a freight forwarding service available that will save you a lot of money. You'll see that option when the shopping cart provides freight quotes. Be sure to sign up and check their rates. They'll give you an address in America to ship to, and we will ship there. They will then take delivery and forward the packages to you.
