Subject: Re: 2pi tower finished ... finally! Posted by Bill Epstein on Sun, 18 Aug 2013 02:06:26 GMT View Forum Message <> Reply to Message

Just went into my Film Cap box, I thought I had a pair of .33 or .47 Jantzen Supremes I could send to you but they turned out to be 1.0s.

The reason they're sitting in a box and not capacitating is because they're not nearly as good sounding as the Obbligato caps I've been using exclusively in speakers and amp circuits for about 8 years.
