Steve Brown just put one on his Classic 2. Loves it!

It's really light, just 5 grams with a medium 15 compliance. You can get it with a \$250 (!) 2.7 gram weight (mine was a demo and the weight came with) or put a nickels worth of blu-tack on it. At 8 grams it suits a wide range of arms for an 8-11 Hz resonance.

You won't believe horns can image like that!
