Subject: Re: 4Pi with feet Posted by Matts on Wed, 30 Oct 2013 19:06:03 GMT View Forum Message <> Reply to Message

Your speakers look great! The way the feet are integrated and you have them sloped is cool. If you're using new 2226s with a smaller tube amp, the bass may develop more as they break. I use mine with a small SET amp, but when they were new I hooked an Adcom SS amp up to the speakers and played it loud whenever I went out...I felt sorry for my dog.
