Please either give me suggestions or refer me to a source for information.

I am trying to replace my 1969 Heathkit stereo receiver. I have found few stereo receivers at reasonable prices. I was going to purchase a Onkyo TX-8050 which has a phono input. I will be using a Technics SL-BD22 turntable. Will this work? I have read some reviews that indicate that i will need a preamp for some turntables. Any guidance or help will be gratefully received.
