Hi Everyone, I finally got the blank tapes I ordered. NOS BASF ones. In the factory sealed box of 20 in individually sealed boxes with the tapes in plastic wrappers. I recorded the Diana Krall Very Best Of LP today (used the Sota with Origin Live arm, AT33PTG/II and Groove preamp prototype III). Really excellent. The noise level was suitably low enough for serious listening (about like a good clean LP) and the overall sound accurate and clean. I am now pondering using it at LSAF as a primarily source.
