Page count down slighty again for the new issue. I know this (August) is sort of the dog days for publishing but many times the combined article count seems to shrink for speaks. I know Ed has a formula for this but the mag still seems pretty thin. I certainly don't want to lose it, but I'm wondering whatcan be done to save it? Some sort of hybrid print mag. and online service for their archives? Creative Commons licensingof articles? Dunno.
