Subject: No good new artists lately...

It seems like I haven't heard any good, new artists lately. Does anyone know why this is? Is the music industry changing such that you don't have to be a real "talent" to make it anymore? It seems like all the new music I've heard lately isn't even real music; it's just a bunch of synthesizers. What happened to the guitars, the drums, and the talented singers?
