Hi, Here is my latest "find". One of the local Radio Shack Associate stores here is closing. The tuner has been on display at it forever (more than 10 years for sure) so I snagged it today. Before they would not part with it. The tuner is from 1959 and is all tubes. It works and is in really good condition. It will be a nice addition to my all tube system. I still need a schematic for it and will test the tubes tomorrow. I have many replacements in case any are weak.
