Pioneer wrote on Thu, 13 February 2014 15:54I spent too many years going to concerts every month and listening to music on headphones every night. I know I've done damage to my hearing! When I was young, I didn't even think about stuff like hearing loss. I'm probably lucky to still have what hearing is left!

I know what you mean about concerts. Too many years of concerts and standing by the speakers have done some damage. My better half played in a band when he was younger and has noticeable hearing loss to show for it. We never thought about what the loud music was doing to us at the time.
