Hi, We had a last minute change and will not have the guitar amp there. It isn't ready for full public use yet. Everything else from the 1 watt per channel Alpha and new 3.5 watt per channel Beta to the KT120 mono blocks is a go. Vinyl, reel to reel and CD/blue ray is on tap. Our new IC (yes I know we specialize in tubes, but for entry level things occasionally SS is more budget friendly) phono preamps that can do MM, MC and NAB (for tape) will be used as well. We hope to see you all there.
