Subject: Re: One Pi & Two Pi tower speaker plans Posted by kulivontot on Tue, 13 May 2014 12:50:00 GMT View Forum Message <> Reply to Message

Thanks Wayne,

As it turns out one of my roommates is a former woodworker, so I think I may actually be able to get this done in a reasonable time!

Just to be clear, the Pi speaker kits include drivers and parts for ONE speaker, so I need to buy 2x to build a stereo set, correct?
