---

I am new to Pi speakers and would really like to hear a pair of 7Pi speakers (or one of the other cornerhorns). I have a very good configuration in my listening room for the cornerhorn design. I live in central Saskatchewan (Canada) and will be travelling in the last two weeks of June through southern Alberta and BC, out to the west coast, then down the coast to central OR (Waldport area) to relax for a couple of weeks. If there is a 7Pi owner somewhere near that route that would be willing to give me a brief audition during that time frame, I would really appreciate the opportunity, and would gladly compensate you with some of your favourite beverage. PM me, Thanks, Scott
