Round2 wrote on Sun, 27 April 2014 17:39I have a friend who swears by audio books. He even listens to it when he goes jogging or for walks. He says it's very calming, especially when you get a good speaker.

A woman at work jogs at lunch and listen to her audio book while she runs. She says it keeps her focused on her running. I haven't gotten into it yet but I'm afraid I might fall asleep with someone reading in my ear.
