Subject: Re: 7Pi placement in my room Posted by Nelson Bass on Sat, 21 Jun 2014 10:02:02 GMT View Forum Message <> Reply to Message

## Great!

I like to keep things as simple as simple as possible so I changed the bottom panel just to cover the box and removed the panels intended for the corners.

To keep the cabinet sturdy in the corner I added L-shaped profiles to be bolted to the walls.

Go or no go?
