---

ok, thank you Wayne

I bought the TrueRta level4 yesterday and will try to learn how to do this properly I bought a mic and a usb "mic-mate" with phantom 48v some years ago...

The JBL 2225H is used and needs a clean, so I will try to learn this with the eminence drivers until the JBL's are ready

Hope I can get some advice along the way

regards  
Arne Olav
