Hi Wayne and Matts!

Thank you for your replies.

Wayne, I just wanted to make sure that I wouldn´t get a weak or "incomplete" sound without using subs....

Matt, I am using a SET amplifier (Line Magnetic 219IA) and it is rated 24W with 845 output tuve (300B&310A doble stage driver). It is fantastic to find a similar case to mine, even yours is more extreme

Best regards,
JM
