Subject: Preamp Kit recommendations Posted by Seeker on Fri, 13 Feb 2004 15:45:02 GMT View Forum Message <> Reply to Message

Looking for a really good active preamp kit. I have the 4play, but want something a little more articulate and with a little less sonic coloring, which omits the AES stuff. I've heard the old Basie - too euphonic for my tastes, but have not heard the new Basie II - anyone have experience with this new model Basie? What do you guys think of the Transcendent Sound preamp? All suggestions would be very welcome.
