I injured my back and just now can pick up about 20 pounds.....I can't imagine how the nearly 800 pound of stuff we bring could have been loaded in the vehicle. Each of the KT120 amps is more than I can pick up and the speakers we bring are over 50 pounds each.

Sorry to hear about your back. As my grandmother used to say, "and this too shall pass." I ruptured a disc 10 years ago and went through back surgery. It took a couple years to get back to lifting speakers, but lift I did. There is light at the end of the tunnel and it is not a train.
