Subject: Flanking subs Posted by johnnycamp5 on Thu, 02 Jul 2015 10:22:11 GMT View Forum Message <> Reply to Message

I'd like to use "flanking subs" for the 4pi's I'm building. I already own/built one of these-

Scan-Speak Discovery 30W 12" Subwoofer Kit with Passive Radiator

Does this seem like a good sub to go with the 4 pi's, or must I use the 3 pi subs? It would be easy enough for me to buy/build one more.
