My parents owned several music stores for years and years. The business has been closed. My wonderful Father recently passed away and I was hoping that someone on this site would be able to help me. We have 2 BRAND NEW STILL IN ORIGINAL BOXES Electro-Voice Wolverine Model # LS-12. We were going to sell them but we have no idea what they may be worth. They are in perfect condition, like I said they are Brand new and the cones are in perfect shape. Could someone tell me what these might be worth? I really appreciate your time. Thank you
