Subject: Re: Mono "flanking sub" Posted by jonone on Tue, 10 Nov 2015 21:21:39 GMT View Forum Message <> Reply to Message

Ok so don't high pass the mains/flanking sub run them "large" and run the nearfield sub from the lfe output at 60/80hz crossover depending on localisation.

I think I can do this if I set the bass out to " both" on my av receiver.

You think this is more useful then theoretically "relieving the mains of some bass" Thanks, again.
