Nico wrote on Sun, 24 November 2013 17:00It used to be everyone I talked to was into setting up a home theater system in their homes. Now very few people I know have a home theater set up. Have you notice a decline in popularity of home theater systems among people you know?

I haven't noticed this decline, but many of my friends are not audio aficionados to begin with. Within my family it's a different story, though, and we all still have component systems in our homes.
