I don't know how much they cost, but you can try these:
http://www.theproudfootcompany.com/Stores/Soundblox/Type_RSR/RSR-8/

They are 8"x8"x16" and are made of the material they use to build sound buffering walls between freeways and residential neighborhoods.

You can paint them, put a tapestry of some sort over them, stack them as high as you want.....use your imagination.

I don't represent them, I just thought it would be a neat idea.
