Subject: Sending messages via on-air show Posted by Yurimi on Sat, 12 Mar 2016 10:43:02 GMT View Forum Message <> Reply to Message

Back then when my friends and I were still on junior high school, we were really huge fans of radio shows. A lot of them allowed us to request songs and send messages to anyone via text messages. We often sent silly messages, even indirect love confessions, at those days. It is embarrassing to think about such days now, but youth days are always like that, no?

Did you have similar experience?
