Subject: Waterproof IPhone Speaker Posted by JuneBug on Sat, 12 Mar 2016 14:08:02 GMT View Forum Message <> Reply to Message

My boyfriend recently lost his speaker at the beach and hasn't stopped complaining since. He wants a speaker, but won't get one unless it has Apple and/or Android Bluetooth, is waterproof, and hopefully not outrageously expensive.

I would really like to surprise him, so please reply with any ideas you may have come across.
