thanks.Issue 20 has 7591, eBay fraud, the Scott 299 family,the story of Sargent-Rayment, plus various reviews andother stories. And a TUBE DUMPSTER article about Compactrons.Love it when idiots on audioasylum attack VTV for being "only 40 pages long". It's 40 pages with VERY FEW ADS. A typical VTV has at least as much editorial content as any other specialty magazine. Some fools seem to prefer to pay for advertising.Makes them think they're getting something extra, I spose....
