Prisoner AbuseT. Bubba Bechtol, part time City Councilman from Pensacola, Florida, wasasked on a local live radio talk show the other day just what he thought ofthe allegations of torture of the Iraqi prisoners. His reply prompted hisejection from the studio, but to thunderous applause from the audience. "If hooking up an Iraqi prisoner's scrotum to a car's battery cables will save one American GI's life, then I have just two things to say: "Red is positive, black is negative."
