You may get to see interviews with the artists, behind-the-scene cuts, and goodies related to the artist. If you like to collect such items as a fan, I'd say it's worth the cost. If not, you can try to search for the videos on YouTube.

Yeah, actually I'm also interested to buy the DVD because I'm looking forward to those extra contents. I'd love to see the interviews, behind the stage events, preparations, and so on because usually they are funny and show more insight about the artists. Not to mention the high quality of the videos, of course.
