johnnycamp5 wrote on Thu, 16 June 2016 17:09Are you refering to a stereo pair of front mains?

The first thing I would try, would be switching the two, and see if the problem reverses itself, or stays the same.

Johhny, I am referring to the front mains. I have tried switching the two but it remains the same. My thinking is that there could be a problem with the wiring connections.
