drake wrote on Wed, 22 June 2016 00:44I have a friend of mine who is as curious with recordings as you are and there is this app called ClearRecordLite that I see him use on his Android phone. I am not sure if it is available on other platforms but you may want to download then check it out. Thanks, drake. The app is available on other platforms too, so I will check it out. I've heard about an app called Audacity. It works pretty good to reduce noise and amplify the sound for a free app.
