dreamer13 wrote on Wed, 22 June 2016 02:35 I agree about going wireless. I've used both types while running and obviously the wireless headphone wins. I feel that this type of earphone fits in my ear better in various activities compared to other type, though.

How is the sound quality of this earphone compared to the others especially in terms of stereo and bass? I came across some good wireless ones going for around \$25.
