voyager1 wrote on Wed, 31 August 2016 15:36lt covers audio and television equipment under the personal property section, but excludes any devices that can be operated from a vehicle. Also, my musical instruments and audio equipment related to music production have to be covered separately and I pay an additional premium for them. Every insurer and every policy is different, so read carefully!

Thank you clarifying this especially because most people do not take time to understand what their insurance policy covers and what it doesn't. Can you imagine the disappointment of finding this out when it is already too late?
