Subject: Re: Do people still buy radios? Posted by Wayne Parham on Fri, 09 Sep 2016 14:33:12 GMT View Forum Message <> Reply to Message

There's nothin' like a Zenith TransOceanic!

Groovy Old RadiosSeriously though, I still have a NAD stereo receiver that I use on my system for light background listening. And now, I've started using streaming "tuners" on my home hifi too. Same purpose for me - light background listening. Nothing like BluRay or vinyl sources, of course, but pretty good for walkin' around music.
