PianoGrrl wrote on Thu, 19 January 2017 08:12 This keeps being debated when we talk about playing instruments, but it is not just something that matters to musicians. If you listen to music, which do you prefer? Electric instruments or acoustic ones? Some genres are almost entirely one or the other, so does that affect it for you?

If I had a choice, I'd go with acoustic music anytime. I am learning to play the acoustic guitar because I believe you get to hear the music better with acoustic instruments.
