Colin:Please note no offense taken in any manner what so ever. I am more than happy to have an open/free discussion and will listen to any and all comments. From the manual I have the following:Cayin AudioGmbH 65779Kelkheim, GermanyAs to the transformer cover, that will be difficult at the moment as I left the unit at our meeting facility such that the owner of the place where we meet could listen to the unit. As he graciously provides us a very large room for our meetings at no charge I always allow him to use my equipment that has his interest. In the manual it has a picture of the back panel which also has the above address.Have a good weekend.
