To make clickable links, type this:<a
href="http://www.enjoythemusic.com/magazine/viewpoint/1004/joeaudiophile2.htm">Jolida
JD1000</a>-and-<a href="http://www.tnt-audio.com/ampli/mad4multra_e.html">MAD Ultra
4M</a>When you type the text above, it will display like this in your post:Jolida JD1000-and-MAD
Ultra 4MThis is HTML.  It is not very "user friendly," but the upside is you can put anything you
want in your posts.  Links, images, tables, whatever.
