Csharp wrote on Tue, 11 April 2017 14:12Most of us have a room in our house dedicated to listening to music. I know I do.So do you have your room outfitted to match the music you listen to? Like if you listen to country, is the room "themed" in a country style? My room is also not themed to suit any kind of music but I see how this is a good and creative idea. I'd like to see how yours looks.
