Subject: Empowering Soundtrack Other Than Frozen Posted by Madison on Wed, 21 Jun 2017 01:23:50 GMT View Forum Message <> Reply to Message

My kiddos adore the Frozen soundtrack. They play it all the time. Really. All the time. For years now. I've tried to steer them to newer material since Disney's put out several movies since then, but they love Frozen because the women are brave and fierce. Please suggest any G rated songs that fit this theme.
